Regardless of the fact that the USN are pompous idiots who want to fixate on aircraft carriers re: the flush-deck USS United States etc., if we are going to have them, their island superstructures need to FOLD DOWN or somehow clear their flight decks so their full width can be used by larger planes like even 4-engined C-130s.. This is Not a New Problem...

In the hospital setting, emergencies typically occur in emergency departments (EDs) and intensive care units (ICUs). But many also take place in progressive care units or general nursing units. And when they do, they can cause marked anxiety for nurses—especially those unfamiliar or inexperienced with the drugs used in these emergencies.

Hello Experts, I'm looking for the Win32 or NT Native API calls to allow me to create a local user account (not in Active Directory) with a specific SID that I built using the AllocateAndInitializeSid() function. I need this functionality for custom system migration tool where I cannot restore the entire SAM database and ADMT (active directory migration tool) will not suffice.

Nurse leaders nationwide promote measure to benefit patient care and RNs' careers. To garner support for a measure that promotes initiatives requiring future nurses to obtain their BSN in 10 years to continue practicing, long-time New York registered nurse Karen Ballard invoked the rallying cry during ANA's recent House of Delegates (HOD): "If not us, [...]"

1. Introduction F\* is a verification-oriented programming language developed at Microsoft Research, MSR-Inria, and Inria.It follows in the tradition of the ML family of languages in that it is a typed, strict, functional programming language. However, its type system is significantly richer than ML 's, allowing functional correctness specifications to be stated and checked semi-automatically.
