p 2b coordinate plane with circles

Terms & labels in geometry. CCSS Math: 4.G.A.1. Lines, line segments, and rays. ... So when you start learning about geometry, you learn about lines and triangles and circles. And you learn about angles. ... But I guess if we were to draw the analogy, you could call a piece of paper maybe a plane segment, because it's a segment of an entire ...

Terms & labels in geometry (video) | Khan Academy

The following are short descriptions of the circle shown below. Tangent - is a line that would pass through one point on the circle. Secant - is a line that would pass through two points on the circle. Chord - is a secant that would terminate on the circle itself. Diameter, d - is a chord that passes through the center of the circle. Radius, r - is one-half of the diameter.
