Application News! Click here to view the CPARS changes for the May 5th, 2019 release. Past Performance Information Retrieval System (PIRS) data has been merged into the Contract Performance Assessment Reporting System (CPARS).

Contractor Performance Assessment Reporting System

A financial market is a market in which people trade financial securities and derivatives such as futures and options at low transaction costs. Securities include stocks and bonds, and precious metals. The term "market" is sometimes used for what are more strictly exchanges, organizations that facilitate the trade in financial securities, e.g., a stock exchange or commodity exchange.

Financial market - Wikipedia

This document finalizes (with limited revisions) certain proposed regulations. The final regulations provide compliance requirements and verification procedures for sponsoring entities of foreign financial institutions (FFIs) and certain non-financial foreign entities (NFFEs), trustees of certain...

Chapter 4 Regulations Relating to Verification and ...

In finance, technical analysis is an analysis methodology for forecasting the direction of prices through the study of past market data, primarily price and volume. Behavioral economics and quantitative analysis use many of the same tools of technical analysis, which, being an aspect of active management, stands in contradiction to much of modern portfolio theory.
