Fluorine is a chemical element with symbol F and atomic number 9. It is the lightest halogen and exists as a highly toxic pale yellow diatomic gas at standard conditions. As the most electronegative element, it is extremely reactive, as it reacts with almost all other elements, except for helium and neon.. Among the elements, fluorine ranks 24th in universal abundance and 13th in terrestrial ...

Fluorine - Wikipedia

The side of risk communication that built my reputation and sent my children to college was outrage management: what to do when people are excessively frightened or angry about a small hazard and you want to calm them down.

Peter M. Sandman: Outrage Management Index

"The heavens declare the glory of God" (Ps. 19:1a). King David could not see deep into the heavens when he penned this bold statement over 3,000 years ago. How much more has modern technology proven him right today? The Creator's hand can be seen all over
