Social information processing theory, also known as SIP, is an interpersonal communication theory and media studies theory developed in 1992 by Joseph Walther. Social information processing theory explains online interpersonal communication without nonverbal cues and how people develop and manage relationships in a computer-mediated environment.

Social information processing (theory) - Wikipedia

A Word Cloud is a visual representation of some text as a bunch of words based on a weight associated to each word. Typically, the frequency (keyword density) of the words in the page is used as the weight even though some other metric might be used. ToCloud is an online free word cloud generator that uses word frequency as the weight.

Social psychology is the scientific study of how people's thoughts, feelings and behaviors are influenced by the actual, imagined or implied presence of others. In this definition, scientific refers to the empirical investigation using the scientific method. The terms thoughts, feelings and behavior refer to psychological variables that can be measured in humans.
