Toll Saver On Answering Machine

If you enable the Toll Saver (TS), the answering system picks up after two rings if you have new messages, and after four rings if there are none. There are 3 ways to set the record time depending on the model # of your phone. ... Remotely Accessing The Answering Machine

Answering Machine - Uniden Support

SOURCE: how do I activate Toll Toll Saver is the most confusing option with little or no information about it anywhere. It overrides the number of rings settings so that the answering voice mail cuts in after 4 rings or 3 if there are new messages.

How do you turn off "Toll Saver" as an answering system ...

When Toll Saver is on, your Brother machine will answer after four rings if you don't have any messages, and will answer after two rings if you do have messages. If your machine rings three times when you call it, you know you have no messages. You can then hang up to avoid being charged for the call.

What is Toll Saver and how do I program it?

The answering machine, answerphone or message machine, also known as telephone answering machine (or TAM) in the UK and some Commonwealth countries, ansaphone or ansafone (from a trade name), or telephone answering device (TAD), is used for answering telephones and recording callers' messages.
