DHL's 2016 Logistics Trend Radar report says that worldwide supply chains are beginning to undergo a fundamental transformation as more "artificial intelligence" is deployed to handle both the domestic and international movement of goods.

### **Transforming Logistics with Artificial ... - Supply chain**

A supply chain is a system of organizations, people, technology, activities, information and resources involved in moving a product or service from supplier to customer. Supply chain activities transform natural resources, raw materials and components into a finished product that is delivered to the end customer. In sophisticated supply chain systems, used products may re-enter the supply ...

They say life is a journey, not a destination. That's also true when it comes to achieving a truly digitized supply chain. While many businesses view a fully digital supply chain as a pipe dream, they can start their journey through a small and non-intimidating step: implementing workflow automation.

### **How Automation Is Transforming the Supply Chain Process**
